Tip of the Month

Community Forklift is the DC area's new thrift store for building materials. Located in greater Hyattsville, Maryland, CF sells new, used, and green building materials at up to 70 percent below retail. Making home repairs affordable for folks is one mission of CF. The other is keeping useable materials out of our landfills. That's why this nonprofit accepts tax-deductible donations of old doors, windows, and other improvement leftovers. CF's come up with a win-win formula.
